(TASE: BEZQ), announced that further to the Company's Immediate Report dated November 5, 2015 and the description in section 2.18(D) of the chapter containing a description of the corporation's business affairs in the Company's periodic report for 2017, concerning a motion to certify a class action in which it was claimed that the Company abused its monopoly position and prevented competition in the telecommunications market, *inter alia* by acting to delay and thwart reform of the wholesale market, notice is given in this Supplementary Immediate Report that on March 3, 2019 the Company informed the court that in the light of the expected changes to the judicial panel if the petition for approval is accepted¹, it agrees to the court's proposal to approve the application to treat the claim as a class action without a reasoned decision being handed down in this case by the court, while reserving all its arguments for the actual claim.
