#### **Bezeq Group Results (Consolidated)**

**Revenues** in 2014 amounted to NIS 9.06 billion compared with NIS 9.56 billion in 2013, a decrease of 5.3%. The decrease in revenues was primarily related to a decrease in revenues from cellular services due to the challenging competitive environment in the cellular market as well as reduced revenues of Bezeq Fixed Line which were largely influenced by a decrease in fixed call termination rates.

Revenues in the fourth quarter of 2014 amounted to NIS 2.26 billion compared with NIS 2.41 billion in the corresponding quarter of 2013, a decrease of 6.1%. The reduction in revenues was primarily related to a decrease in revenues from cellular services as mentioned above.

**Salary expenses** in 2014 amounted to NIS 1.77 billion compared with NIS 1.87 billion in 2013, a decrease of 5.6%. The decrease in salary expenses was primarily due to streamlining at Bezeq Fixed Line and Pelephone as well as a reduction in share-based payments.

**Operating expenses** in 2014 amounted to NIS 3.37 billion compared with NIS 3.58 billion in 2013, a decrease of 5.9%. For the fourth quarter of 2014, operating expenses amounted to NIS 853 million compared with NIS 966 million in the corresponding quarter of 2013, a decrease of 11.7%. The decrease in operating expenses was due to a reduction in most of the expense items of Bezeq Fixed Line and Pelephone.

**Other operating income** in 2014 amounted to NIS 586 million compared with NIS 15 million in 2013. The increase in other operating income was due to the one-time gain of NIS 582 million from the sale of Coral Tel Ltd., the operator of the "Yad2" web site.

Other operating expenses in the fourth quarter of 2014 amounted to NIS 15 million compared with NIS 81 million in the corresponding quarter of 2013, a decrease of 81.5%. Other operating income in the fourth quarter of 2014 amounted to NIS 4 million compared with an expense of NIS 20 million in the corresponding quarter of 2013. **Gil Sharon, CEO, Pelephone**, said today, "2014 saw heightened market competition, which grew even more intense in early 2015. In 2014, we generated NIS 1.2 billion in cash from operating activities, entirely from cellular operations. To continue providing customers with the fastest network in Israel, in 2014, we also launched our 4G LTE network, and have redoubled our efforts to deploy hundreds of sites around the country.

In 2014, Pelephone maintained its position as the company with the lowest customer churn among the incumbent operators. This was reflected in a negative net porting of 31,000 subscribers, as compared to 110,000 subscribers who left Partner, and 119,000 subscribers who left Cellcom," Sharon noted."
