Immediate Report

Class Action against Bezeq International

The Company has today received notification from its subsidiary Bezeq International Ltd ("Bezeq International") concerning legal proceedings together with a request to have it approved as a class action, filed against it and two other international operators ("the Respondents") in the Central District Court. The claim concerns the rate that the Respondents charge for outgoing international telephone calls by non-subscribers. According to the Claimant, this is an exaggerated and unreasonable rate, in violation of section 17 of the Communications Law (Bezeq and Broadcasts), 1982.

The Plaintiff does not explicitly specify the amount of the claim against the Respondents.

Bezeq International is studying the details of the claim and the request to have it approved as a class action, and neither it nor the Company are able at this stage to assess their chances.
