The Tel Aviv Stock Exchange Ltd.

Immediate Report – Public Call for Reviewing the Regulation Method of BSA Tariffs

Further to the Company's immediate report dated March 28, 2024, regarding the hearing on determining maximum payments for the use of the Company's passive network, and further to the update in section 2.16.4.5 of the Description of the Company's Business Chapter in the Company's Periodic Report for 2023, Bezeq The Israeli Telecommunications Corp. Ltd. ("the Company") provides an immediate report that on February 23, 2025, the Ministry of Communications ("the Ministry") published a public call ("the Public Call").

The Ministry seeks public input on reviewing the method of ex-ante regulatory oversight through the determination of maximum tariffs for BSA (wholesale internet) services, which are currently set by the regulator.

In accordance with the Public Call, following developments in the market, *inter alia*, in view of the existence of three wholesale networks with wide deployment, the voluntary agreements signed in the market, and in light of the recommendations of the European Commission regarding the minimization of price control in advance for network operators in areas where there is competition, based on infrastructure or joint investment agreements, the Ministry is examining the scope of its intervention in the BSA tariffs and is requesting the public's input in order to assist the Ministry in examining appropriate regulatory and supervisory measures in order to bring about an expansion of the level of competition and reduce the regulatory burden.

Responses to the Public Call must be submitted by March 16, 2025.

For the full text of the Public Call in Hebrew, see: <https://www.gov.il/he/pages/23022025>

Yours sincerely,

“Bezeq” The Israel Telecommunication Corp Limited
